Top-Up Voucher for COMET Cloud

code: SLU503

COMET Cloud is the internet storage of data measured by

COMET Cloud is a paid service. With every purchased COMET device that is compatible with COMET Cloud, you get free time limited access to COMET Cloud.

At any time you have the option to purchase a recharge coupon for 1 year, 2 years or more years of operation of the device. Extension of the subscription for individual devices is realized through credits from the wallet, which is built into the COMET Cloud.

You can increase the credit balance in your COMET Cloud wallet as needed by purchasing a Top-Up Voucher. The unit price of the coupon is always for one credit.

For the annual operation of devices in the COMET Cloud, you need to purchase the following amount of credits:

- IoT Wireless Sensors, powered by Sigfox, Wx8xx series --- > **2 credits**
- IoT Wireless Sensors, powered by LoRaWAN, Wx9xx series --- > **1 credit**
- IoT Wireless Dataloggers, with built-in GSM modem, UxxxxM series and WiFi Sensors --- > **1 credit**
- WiFi Sensors --- > **1 credit**
- WebSensors with Ethernet communication --- > **1 credit**
- Monitoring Systems MS with connected Ethernet communication --- > **2 credits**
