Humidity-temperature probe for p-line Web Sensor

code: DSRH/C

Digital humidity-temperature probe for P8xx1 Web Sensor with CINCH connector.
The accuracy of COMET System digital probes only depends on the probe itself.
They can be calibrated independently from the device, making it easy to swap probes and avoid measurement problems during calibration.

Optionally with cable length 1, 2, 5 or 10 meters.

Technical data

TEMPERATURE SENSOR	
Measuring range	0 to +50 °C
Accuracy	± 0.5 °C
RELATIVE HUMIDITY SENSOR	
Measuring range	10 to 90 %RH
Accuracy	3.5 %RH in range 10 to 90 %RH at 25 °C
GENERAL TECHNICAL DATA	
Dimensions of the case	length 100mm; diameter 14 mm
Connector	CINCH
IP protection	IP20
Warranty	3 years
