Accredited atmospheric pressure calibration – ISO/IEC 17025

code: SLU006

Accredited calibration of atmospheric pressure is performed by an external accredited calibration laboratory. The service includes the issuance of a calibration certificate.

- accredited calibration according to CSN EN ISO/IEC 17025:2018
- the results of the accredited calibration are internationally recognized under the EA MLA and ILAC MRA agreements
- calibration at 6 atmospheric pressure points is included in the price

The required calibration points must be specified in the order.
If no calibration points are specified, the calibration will automatically be performed at the standard points of 600 hPa, 700 hPa, 800 hPa, 900 hPa, 1,000 hPa, and 1,100 hPa.
