Pt1000TR125/M, temperature probe, cable 1 m

code: SN239M

Multi-purpose watertight IP67 probe -190 to +150°C. Accuracy class B.

Stainless steel 17240 with teflon cable of specified length, with MiniDin connector. Diameter 5 ± 0.1 mm, length 50mm.

The structure enables faster response to changes in temperature in comparison to sensors with a protective thermowell.
